

EnergyTender+

A rectangular double-walled mobile fuel storage tank with a storage capacity of 500 to 3000 liters.

Features:

- 2½" fill opening and 1½" gauge opening with brass cap
- 1 x 1" suction tube capped
- 1 x 2" and 1 x 1" reserves with stop
- Venting with outflow protection
- Mounting rail for pump set
- Galvanized lid, fitted with gas springs and chrome hinges
- Galvanized stacking profiles and four integrated lifting points
- Pump space of 30cm
- Padlock protection
- Europe package
- Mechanical contents gauge

Special versions: EnergyTender+ K and KD

EnergyTender+ K: A storage area at the front end of the EnergyTender+. The storage area is accessible from the top. Another option: installing a 450 or 600 liter tank for AdBlue® in this space.

The EnergyTender+ KD: The same storage area, but equipped with a lockable door. This version is preferable if a genset or other installation is to be installed that must be easily accessible.

Generator set

For powering a generator or heater, a separate connection set is required.

The set consists of: ½" suction tube with ball valve (2x) and ½" return connection with ball valve (2x).

Own RAL color

The drip tray is standard delivered in RAL 3002, but can also be delivered in any other desired standard RAL color.

Optionally, the Drip tray is available galvanized.

Certifications

ADR, Kiwa, Vlare, DIBt and UN.
