# TrolleyMaster®

Handy and universal mobile tank for Diesel and AdBlue® distribution in any terrain

Available capacities:  
60 & 100 L

TrolleyMaster AdBlue®

TrolleyMaster Diesel

Versatile use:

Opportunities with  
Hire Companies

Marine

All terrain vehicles

Long journeys

Roadside  
assistance

Forklifts

Landscape/  
Ground Maintenance

Repair equipment

Generators

Plant/  
Construction

Agriculture  
machinery

Forestry

# TrolleyMaster®

Discover the benefits of handy TrolleyMaster mobile tanks:

## Off-road rubber wheels

Two solid rubber wheels with a diameter of 250 mm allow for transporting the tank.

## Dedicated nozzle pocket

Pocket collects liquid drops from the nozzle and protects the nozzle during tank transport. It can be easily unscrewed and cleaned.

## Groove for delivery hose

The profiled groove makes it possible to wrap the hose around the tank while on the move.

## Comfort of refueling

An efficient pump with battery clamps allows you to quickly dispense diesel/AdBlue®.

## Ergonomic handle

Comfortable, profiled handle provides a secure grip when pulling and lifting the tank.

## Ball valve

Ball valve protects against liquid leakage from the product during transport.

## Mobility

Safely transport diesel/AdBlue® directly to machines, including boats and equipment operating in difficult terrain

## Trustworthy Quality

Durable construction, corrosion free and weatherproof

## Saving Time and Resources

Mobile tanks are compact and perfect in the agricultural, construction or forestry industry, because they let you avoid equipment downtime during work

## Peace of Mind

2 years guarantee on the tank and 1 year on equipment

## Equipment:

1. TrolleyMaster tank
2. Groove for wrapping the delivery hose during transport
3. Nozzle pocket
4. Automatic nozzle with a swivel
5. Transport handle
6. Battery clamps
7. Fuel cap with breathing valve
8. 12 V DC or 24 V DC pump to choose
9. Flexible delivery hose 3 m
10. 3/4" ball valve
11. Non-slip handles
12. Profiled corners for fastening straps
13. Solid rubber wheels with a Ø 250 mm diameter
14. K24 digital flowmeter (optional)

## Dimensions:

		TrolleyMaster® 60	TrolleyMaster® 100
Capacity		60 Litres	100 Litres
Dimensions	Length	380 mm	380 mm
	Width	380 mm	440 mm
	Height	905 mm	1130 mm
